

Affirmations of Faith:

Consistent with the spirit and intent of Jesus' teachings

First: God is love, and all of His actions towards me are motivated by love.

Second: God is omnipotent, and *He is more than able to accomplish in my life all of His loving purposes.

Third: God is omnipresent and exists everywhere, including inside of me. It is impossible for me to escape from His loving presence.

Fourth: I am a child of God, a spiritual duplicate of God Himself, constructed, as it were, from His own spiritual DNA.

Fifth: Because I share God's divine nature, I have all the resources within me to achieve the desires of my heart.

Sixth: Because divine love is, by definition, not self-serving, I may only find lasting joy and happiness through service to others.

Seventh: As my loving Heavenly Father, God will protect me from harm. The various trials, disappointments, failures, and sufferings of this world, even death, cannot harm me. There is a loving purpose behind every negative experience.

Eighth: God wants me to experience a life of abundance and happiness, but in order for this to happen, I must seek His Kingdom and tend to the needs of others.

Ninth: If I want to be receiving, I need to be giving. I will be receiving in greater measure than what I give.

**God is not a he or a she, but instead the sum of everything that exists, including me.*
